

# PROJECT BRIDGE

## DOES YOUR YOUNG CHILD

- Cry or tantrum for long periods of time?
- Prefer to be alone rather than with you or others?
- Have difficulty complying with what you ask her/him to do?
- Hit or bite you or others?
- Mess or destroy things?
- Have difficulty with changes, transitions or new people?
- Fail to respond appropriately when disciplined?

## WHAT IS PROJECT BRIDGE?

- A research project for parents with children under four years of age who display one or more of the behaviors listed
- A project that compares the effectiveness of two evidence based intervention models that help parents manage their young children's behavior and social emotional problems

## WHAT DO FAMILIES DO?

- Agree to weekly intervention visits for six months or longer.
- Willing to attempt behavior management strategies with their children at home
- Participate in assessment activities over an 18 month period

## WHAT SERVICE DO FAMILIES RECEIVE?

- Assessment of your child's development
- Techniques to enhance your effectiveness at managing your child's behavior problems and social emotional needs
- Trained interventionists who provide weekly services at no costs to families
- Stipends for completing assessments

## HOW DO I BEGIN?

Contact us by phone or e-mail.
